

Kingdom Moments

Journey to Healing

Colin Young

December 24, 2023

Three years ago, I had three types of cancer — bladder, prostate, and appendix. In the beginning it was difficult having the news I had cancer. I want to thank TC Vegas for all her encouragement to follow the Lord and to have faith, to trust and worship Him. It was an experience going through each day. I also want to thank all the intercessors of Mountain View for your prayers because prayers do work. It has been quite a journey.

I would like to thank my wife Sheree, too. You know, we said those marriage vows for better and for worse. She has been there every time for my chemo treatments, doctors' appointments, and took care of me after surgery. I am blessed she has been by my side.

In my journey I knew I needed to get closer to the Lord, pray more, and have the faith He would heal me. It was frustrating at times. Right now, I have gotten rid of two cancers — appendix and prostate. Although my bladder is currently clear, I still must go through more chemo treatments.

I have faith and am trusting the Lord. I thank the Lord so much! I declare that I am healed of all cancer!

*The testing of your faith produces perseverance.
Let perseverance finish its work so that
you may be mature and complete, not lacking anything.
(James 1:3-4 NIV)*
